CAREER OBJECTIVE

I am a freelance web developer with a bachelor's degree in mathematics and seven years of managerial experience in the hospitality sector. I am seeking a development position in a collaborative environment that values creativity, diligence, and productivity.

PROJECTS

Cheat/Sheet

🐙 github.com/neilmbarry/cheatsheet-app

Full stack (MERN) application that allows authenticated users to create cocktail information cards, and add them to a database. Users can query said database for cocktails and add reviews, ratings and favourites.

Ship-Head

🐙 github.com/neilmbarry/shiphead

A live card game utilizing React.js on the front end, and an Express server in combination with socket.io on the back end. Users can play games against up to three other players on separate devices, or against computer opponents.

Simpl.

🐙 github.com/neilmbarry/SimpApp

Full Stack (MERN) e-commerce application that operates as a wardrobe sharing marketplace. Authenticated users can publish items of clothing and search for others based on location, size, brand etc. Users can also add ratings and reviews.

WORK EXPERIENCE

Web Developer

Freelance

📅 September 2022 (current)

- Designed and developed static websites for small business in the Toronto area, secured hosting, domain, and SSL certificates for clients.
- Developed responsive, maintainable websites with cross-browser compatibility on multiple device types.
- Integrated Shopify and Google analytics to increase conversions, track usage and monitor website traffic.

Operations Manager

Project Giggewater

📅 July 2020 - August 2022

📍 1369 Dundas Street West, Toronto

- Responsible for adapting business model from dine-in service to virtual experiences, pre-assembled cocktail kits and RTD (ready-to-drink) offerings.
- Redeveloped website to showcase new offerings, to place orders and book experiences, as well as managing social accounts to promote and advertise new product line.
- Coordinated with brand ambassadors and liquor representatives to organize and execute group virtual classes.

Bar Manager

The Cloak Bar

📅 August 2018 - July 2020

📍 488 Wellington Street West, Toronto

- Managed all areas of the bar, including hiring, training staff, menu design, budget and scheduling.
- Redeveloped inventory tracking and ordering system to allow for increase in efficiency and accuracy, allowing to anticipate usage, predict spending, maintain budget.
- Liaised with liquor and brand representatives to negotiate sales kickbacks and sponsored events that both boosted exposure in the industry and generated additional revenue.
- Set and maintained high of standard of service, ultimately leading to the venue entering the list of Canada's top bars in 2019 during tenure. (canadas100best.com/thecloak-bar)
